

ARJUN BISHNOI

contact@arjunbishnoi.com

Toronto, Ontario

Availability

— **Monday to Friday:** Full-time **Weekend:** Full-time

Work Experience

— **Mobile Apps & Web Developer**

Freelancer, Remote

Jan 2018 — Present

- Built cross-platform mobile apps using React Native and Expo for iOS and Android, including a music discovery app, a period tracking app with on-device AI, and a digital time capsule app.
- Developed Progressive Web Apps (PWAs) and a personal portfolio site (arjunbishnoi.com) using Next.js, React, and Vercel with custom UI components.
- Integrated AI/ML features into mobile apps including on-device language model inference (distilled Gemma) and AI-powered UX flows.
- Managed full project lifecycle independently - architecture, design, development, and deployment.

— **UI/UX Designer**

Freelancer, Remote

May 2022 — Present

- Led end-to-end UI/UX design and implementation for mobile and web apps, owning the full design-to-code workflow across iOS, Android, and web platforms.
- Designed consumer-facing interfaces for a music app, health tracker, and time capsule app - prioritizing clean visual hierarchy, accessibility, and ease of use.
- Built reusable component libraries and design systems to maintain consistency, and translated product strategy into wireframes, prototypes, and polished final screens.
